

DEMME DIGITAL PACKS

Customers who purchase the Math-U-See Universal or Level Up Sets will receive access to the Demme Digital Packs. These packs provide our customers with something they've been asking for – streaming instructional videos and PDFs of our Instruction Manuals. All the instruction materials will be located in a convenient online location. We've also compiled all of our free resource links in one spot, such as online drill page, worksheet generator, and free access to our in-browser Math-U-See Manipulatives (for use in Chrome or Safari browsers).

- Included with purchase of any Math-U-See Universal Set or Math-U-See Level Up Set
- Includes Lesson by Lesson Instruction PDFs, instructional videos, and complete solutions
- Access to Math-U-See Digital Manipulatives using Chrome or Safari browser*, with an introductory overview of how to use the app
- Links to the Math-U-See Online Drills, Worksheet Generator, Skip Count Songs, record keeping sheets and other resources where appropriate
- Access to the Digital Pack is a 12-month subscription. This begins from the **time of activation**. **This must be clearly communicated to the customer**, as we do not have a way to reset the clock or extend their subscription in this iteration.
- Includes Lessons and Tests solutions; parents will need to manage this.
- Physical manipulatives provide educational experiences that the virtual manipulatives can't, and vice versa; by purchasing a Set and providing a student with access to both, parents are giving their students additional opportunities to learn and master concepts.
- *While the Demme Digital Packs can be used in any browser, the Digital Manipulatives are only designed to work in Chrome or Safari browsers. The link to the Digital Manipulatives is just beneath the Select a Lesson dropdown menu.
