

Chairs

10 x 10’ booth space—4 booths wide

**NOTE:**  
Room for variation in lay-out with this much space. There might be wisdom in separating the tables to allow for a larger audience around each display. Might also need \*two\* catalog/contact card stations with this much booth frontage.

**LEFT BOOTH:**  
Newcomer Display—Large rack or bookshelf, or crates on the left. Rest of display at table level on book easels.

**BOOTH #2:**  
Core Display— Large rack or bookshelf containing one full Core or a sampling of multiple Cores.

LA/Handwriting Display—Basket containing samples of K-2 Adv Readers. Create behind holding LA IGs and handwriting samples.

**BOOTH #3:**  
Core IG Display—Large rack holding front-facing Core IGs.

Science Display—Medium rack holding samples of K-6 Sciences with IGs.

**BOOTH #4:**  
Six foot table with large rack or bookshelf holding Math and/or Electives products.
