HISTORY

Navigate a sea of change as you continue your exciting journey through American history!

This year you and your children will continue your study of American history from the 1850s to the present day with an emphasis on social history, rather than on military, political or civil. Core 4 *Introduction to American History, Part 2* completes the 2-year study that you began in Core 3.

This year you will...

- Journey with Abraham Lincoln as he navigates the treacherous waters of the American Civil

War, frees the slaves and begins the healing of a nation once divided.

- Investigate the Great Depression and discover how this time of desperation changed the social structure and economic structures of many countries including the United States and lead the world to the brink of another World war.
- Marvel at the way William Wilberforce helped Britain to achieve, without bloodshed, what it took America a civil war to accomplish.
- Encounter the rich history and culture of Canada as you explore the vast geography of this, the world's second largest country.
- And much more...

Your key resources will be books 3 and 4 of Franklin Escher, Jr.'s *The Story of the U.S.A.* and Daniel Boorstin's *Landmark History of the American People*. You'll also read engaging biographies, works of historical fiction and other masterfully told stories that will unveil the trials and triumphs of America—"land of the free, and home of the brave."

History and Geography 4 are fully integrated with the History 4 Read-Alouds and Readers 4 packages to bring American history to life for your children.

The D family has used Sonlight Curriculum since they started homeschooling six years ago.

"Sonlight and homeschooling have given us the freedom and time to learn many practical skills, like cooking," says Chrisanne K of Bloomington, MN. "This was our second time using Core 5, and one of our favorite parts is making meals from the countries we study. Here, Heidi (8), Laurie (12), and Natalie (16) are making chapattis and having a wonderful time together." The girls are in their tenth year of Sonlight.

"I opened my new Sonlight box today, and I cried. Just look at all those books with the lessons already prepared. Even the details of how to put my Instructor's Guide together ... I've been struggling for months with homeschool, feeling very disorganized and guilty—and just look at what's in my box! Sonlight answered my prayers. Not only am I a better teacher, but my son has opportunities for learning that he's never had before."

—Michele H in PA, February 2007

"We love Sonlight and often find that what we are studying naturally flows over into the children's play and daily life," says Laura R of Siloam Springs, AR. "During Science 5, Jacob (11) could often be found out in the yard trying to build one of the structures the survival skills book described. We've used Sonlight for all seven years of our homeschooling and would never consider doing anything else."

"The Great Wall of China exhibit came to Melbourne Museum this past year while we were doing Core 5," writes Chareen R of Australia. "My husband Paul and daughter Jane (11) shared a moment trying on some period style costumes in the hands-on area. Thank you Sonlight for the wonderful cultures you introduced us to this year!" The R family has homeschooled seven years, five with Sonlight.

"Although we were going to order Core 3 for my daughter in the fall, I caught her with yet another book about Ancient Egypt and Ancient Rome, and reading a chapter out of Missionary Stories with the Millers. I looked at her and thought... why am I hung up on waiting until next year?"

I told her 'I know I made a mistake not ordering Core 1 for you in September. But what if we just order it tomorrow?'

She jumped off the couch—eyes gleaming so bright they could have lit up the universe— and said excitedly, 'Oh mommy! Thank you for homeschooling with Sonlight. I LOVE it! I don't have to wait to learn what I want to!'

My heart softened, my eyes misted, and I thanked God for the courage he gave me to go against the grain. I love to see the joy that was so palpable in our daughter as she tells everyone, 'Mommy ordered Sonlight just for me!'

“After four years using Sonlight, my 9-year-old daughter took her first test ever: the 4th grade level of the Iowa Test of Basic Skills. I had been anxiously awaiting the results, and hoped for the best, just to defend homeschooling to our skeptical Chinese neighbors.

I was thrilled with the results. My daughter is at the 7th grade level in reading, math, social studies, and sources of information. Moreover, she is at the 11th grade level in science! I knew my daughter was learning with Sonlight, but in this country where everything is determined by test scores, it's great to see that Sonlight "translates!"

Bring the story of Christianity to life as you and your student embark on an exciting journey from Pentecost to the present!

“Pack your bags” for an inspiring, and sometimes challenging, journey through 2,000 years of church history. Core 200 – *History of God's Kingdom*, will ensure that your children have a balanced understanding of the tragedies and triumphs found in

church history so that they will be able to answer the opponents of the Christian faith (that they are sure to encounter) with knowledge, wisdom, and spiritual insight.

Core 200 History uses *The 100 Most Important Events in Christian History*, *From Jerusalem to Irian Jaya*, *The Church of the East* and *The Story of Christianity* and your Core 200 Instructor's Guide to unlock the rich heritage of the Christian church.

You and your student will:

- Discover the fascinating and largely untold story of the first “missionaries” to East Asia whose impact may have even reached Japan by the mid-700s.
- Applaud the heroic deeds of those who sacrificed their fortunes, reputations and lives to make the Bible available for all to read.
- Travel with Patrick as he returns to the land of the pagan people who once enslaved him to bring them the gospel for the first time.
- Wrestle through some of the controversial issues that have divided the Western church as you come to understand why it has come to exist in its present form.
- Examine the revolutionary invention that aided in the rapid spread of the gospel and forever changed the way ideas are communicated and preserved.
- And much more.

Your Core 200 Instructor's Guide covers your study of the History of God's Kingdom, 27 literary classics, Bible and our Language Arts 200 program. Add the appropriate science, math and electives for a complete, ready-to-go, one-year curriculum.

"Sonlight's great curriculum has instilled a real love of learning in Aurora," writes Carolyn L of Crooked Creek, AK. "When she's not enjoying the outdoors in our brief Alaskan summer, she's got her nose in a book, usually a Sonlight book!"

Here, Aurora, (14) harvests a "monster" Alaskan cabbage. She's been homeschooled all her life, is doing Core 200 and has been a Sonlighter for six years.

"I was 'shell-shocked' out of my faith for years in college. Because of that, I want my children to know what they believe, and why. I want them to be accustomed to hearing other points of view. I think Sonlight does the best job of this."

-Kelly S. May 2007

200 History of God's Kingdom (cont'd.)

"Here's my oldest daughter, Amy (who's doing Core 300), looking through the Sonlight catalog," writes Dora B of Portage, IN. "Seeing my high school daughter scoop up the Sonlight catalog and leaf through it for a long time with great interest and excitement was fun to capture. How many high-schoolers are that interested in their school?" Amy has been homeschooled for nine years, with Sonlight from the start.

Analogies 2 ①+ 240-10 \$8.50

Think of an appropriate analogy and you have half-won the argument, almost fully explained the scientific principle, all but assured yourself of winning your audience's attention. An inability to think analogically, or an inability to tell the difference between good and bad analogies, will not only hamper your ability to communicate effectively, but will condemn you to muddled thinking. The Analogies series provides instructions, strategies, and practice in solving analogical puzzles. For junior high up. Does not require completion of *Analogies 1* (provided in Language Arts 140 program). Pb. (Consumable)

Joseph V of Chapel Hill, NC—a Sonlighter for eight years—is outside, trying out what he's been reading. This time, it is "Indian Fry Bread," inspired by Core 3. He asks, "Did people in the past really live this way? How did they manage?" His mom, Nana, writes, "As he explores early American life in our backyard, you can't tell that reading used to be a challenge for him or that he used to think it a waste of time. All you can see is him gobbling up delicious history books and scampering off to see how those ideas work today."

300 20th Century World History

Core 300 Package

Prepare your older students to understand, engage, and transform our world.

This year you and your teens will journey through one of the most fascinating and challenging time periods in all of history—the 20th Century.

Along the way you'll encounter: two world wars, the first airplane flight and moon walk, and a bomb powerful enough to level an entire city. You'll also uncover amazing advancements in medicine, science and technology, a war fought without a single shot, the "taming" of the wild west, the joys and sorrows of the industrial revolution and much more.

You will travel to far-off lands and to the streets of small American towns to study the roots of the political, social, and cultural wars that continue to rage today. Best of all, you'll discover how to respond to the opponents of God as you defend your faith and challenge theirs while confidently sharing biblical truth.

Daily Time Requirements (all subjects): Student: 6-8 hrs; Parent: 1-2½ hrs.

INSTRUCTOR'S GUIDE

You don't have to read 42 books this year to effectively teach your teens!

Your older students will read 42 books this year—but you don't have to (although, with the time your Core 300 Instructors Guide saves you in planning and lesson preparation, you could).

Largely designed as a self-study curriculum for your students, the Core 300 Guide speaks directly to your students. Through open discussion and your student's journaling, you will track their progress.

You'll love the fact that:

- Every day, every lesson—for an entire year—is planned.
- You'll rest easy, knowing that your kids are receiving one of the best preparations for college and life beyond high school.
- You won't have to spend weeks putting together your own high school curriculum.
- Core 300 is largely self-guided, freeing you to use your time in other ways.

Take the guesswork out of teaching your older students with the proven Core 300 program.

Mere Christianity

②+ 310-20 \$11.95
☐ Lewis. One of this century's master wordsmiths presents the case for Christianity—"mere" Christianity: "a hall out of which doors open into several rooms"—the various Christian churches and denominations. "If I can bring anyone into that hall," Lewis writes, "I shall have done what I attempted." People should never stay in the hall, Lewis says, but they must at least enter the hall before they can go into one of the rooms. So come along and either permit Lewis to speak to you where you are, or listen in as this gentle but brilliant author presents his case to others for why they should at least enter the hall. You can learn from him. Excellent. Highly recommended. **X** Pb. **RA:** 8-A; **R:** 9-A

Twins Cassandra and Corina D of La Canada, CA, enjoy some time together while studying American Lit. "When people ask me what curriculum I enjoy, Sonlight is my number one recommendation—especially at the high school level," reports their mom, Cheree. "I love that Sonlight teaches my children to think. All authors have a bias; Sonlight not only acknowledges this, but also teaches my children to recognize and analyze different views from a Christian perspective. I also treasure the interaction and lively discussion we enjoy as we learn together. I feel like I am on an educational adventure, too!"

Cassandra and Corina have used Sonlight for six of their ten years as homeschoolers.

“We love Sonlight’s wonderful books, and the fact that all the work is done for me (I’m too tired to prep at night), we have great conversations during the day about what we’ve read. I love being part of my children’s education and I value knowing that with this curriculum they’ll learn to think, reason, understand—all from a Christian perspective.”

Analogies 3 ①+ 340-10 \$8.50

☐ Liebman. Analogies are at the root of good communication, the heart of beautiful prose. They are what similes and metaphors are made of. Think of an appropriate analogy and you have half-won the argument, almost fully explained the scientific principle, all but assured yourself of winning your audience's attention. An inability to think analogically, or an inability to tell the difference between good and bad analogies, will not only hamper your ability to communicate effectively, but will condemn you to muddled thinking. The Analogies series provides instructions, strategies, and practice in solving analogical puzzles. For 7th through 12th graders. Does not require completion of *Analogies 1* or *2* (provided in Language Arts 100 and 200 programs). Pb. (Consumable)

"Sonlight books bring history to life for us. Ever since we began using Sonlight (seven years ago), it's been fun to watch our son 'act out' the history we study each day. I know he 'gets it' when I don't have to create hands-on 'stuff'—he does it all on his own!

Last year we had a full-size Mongolian yurt in the back yard, now it's Roman gladiators. All thanks to Sonlight's living history!"
